# **Dementia Care**

## Dementia Care Products

It's common for a person living with dementia to become disorientated within their living space. This is why Standex Systems provides a wide range of orientation and dementia care products.

## Dementia Care Signage

There are 100's of different signs to choose from just let us know what you want and we can provide it for you!

Our range of signage covers fulfill the most requirements but we encourage our customers to specify their own colours and words if these make the signs more pertinent to their individual settings.

**There is no additional charge for this service.**

Personal Orientation Board	£ 110.00 *
Simple Orientation Board	£ 100.00 *

## Care Plan Lockable Box

Care Plans are highly valuable documents and if used correctly, can provide a wealth of benefits to people with Dementia, their carers and families. Collaboration between the “University of Bradford’s Dementia Group” and “The Royal British Legion Homes” revealed a need to keep people’s Care Plans in their own room. In practice there are issues concerning the feasibility of maintaining and consulting a Care Plan when it is located (as they typically are) in a central office, which may be some considerable distance from the resident’s room. It was concluded that storing the Care Plan in the residents room would help ensure that Care Plans are always up to date and accessible to consult.

The “Bradford Dementia Group” approach us with this innovative concept and asked if we would design and manufacture a product which was: robust, secure and large enough to accommodate a Care Plan folder. Keyless access using a digitally coded access system, attractive in the context of the resident’s room. The design was manufactured and implemented throughout the “Royal British Legion Homes” and have since been adopted in many homes where this strategy is considered to be beneficial. This product is now available to purchase online and is generally a stock item. For larger roll-outs please contact the sales office directly to discuss pricing and lead times.

**Size: 400 x 400 x 120 mm**

Product	Price

# Crockery

Available in Blue, White or Yellow

This is the brand new **Dining Range** of crockery, designed for all care settings where cognition, vision and dexterity are common problems.

4 years of development and consultations have resulted in its evolution from a concept to address a need, to something you can buy and use to bring the benefits of this product into your home.

Your first impression is that **Dining** is an attractively coloured, high quality range of traditionally manufactured crockery with elegant and unique design features. On handling the pieces, you may realise that there's something else about this product which is different. Although it looks and feels like ceramic, it doesn't have the weight of ceramic, which can often be excessive for our customer. The Dining Range is manufactured from a high quality melamine. Poles apart from the picnic-style products we've all seen before - this material has some exceptional and valuable properties that make it perfect for any care setting.

The range is infinitely more durable than a traditional porcelain product and provides a range of benefits, which cannot be achieved by any other product and with has an exceptional level of dignity.

## Key Features

Improved manipulation and enhanced presentation of food

Contents stay longer warmer (reduced transfer of heat through mugs)

Broad base for greater stability

Dishwasher safe

Lipped rim reduces spillages

Perfect weight

Intelligent design supports good nutrition and maintains dignity

Broad rim for a better grip

Cost saving through high durability

Proportions aid portion control

Hard-wearing integral colour

Reduction of waste and improved nutritional intake

Product	Price
8 Inch Side Plate	£ 4.50 *
Bowl	£ 5.95 *
10 Inch Dining Plate	£ 6.95 *
Cup	£ 3.95 *
Lid	£ 1.95 *
Cup and Lids Combo	£ 5.90 *
1 x Place Setting (Cup, Lid, 7" & 10" Plate, Dish)	£ 22.40 *

**Material:** Unbreakable Triton -> microwave and dishwasher safe

Most dignified feeder cup available through to its own lid. Also available with a spill free lid.

The Dining Mug has just the right size to hold an appropriate portion of fluid without being too heavy.

The slow transmission of heat through the cup makes it much safer to hold hot drinks and retains the heat for longer.

The large handle makes gripping the cup much easier.
